Thank you Anne! And great to meet you, Chris and Tyler.

I'd love to set up a (BRIEF) meeting to discuss this.

SD2-- would you mind sending over some times that are open for a video call and I will respond for me and Thomas Check from our engineering team?

As a fellow deputy, I know how busy we are and promise to keep it quick :)

Hi Bubba,

Thanks for reaching out – happy to help kick start the conversation.

I am copying my colleagues Chris Ah San, Senior Deputy of Arts and Culture who works with our County libraries, and Tyler Webb, Deputy of Unincorporated Area who has specialized on parking issues that may be able to provide some insight from his experience.

Thomas – happy to coordinate with you and our team a meeting to discuss further. Let us know how you'd like to proceed.

Best,
Anne

Subject: parking at County library on Overland

Hi Anne,

I'm reaching out to you with a different hat on, as Culver City Councilmember to introduce you to Culver City's traffic engineer Thomas Check.

Our public works department is working on a safe streets project on Overland called "Better Overland" which will install better crosswalks and potentially protected bike lanes on Overland Blvd from Venice Blvd all the way to Freshman Drive. It's a fantastic project that will make a very dangerous street much safer.

Community outreach is underway for phase II which starts at Culver Blvd and ends at Ballona Creek entrance.

That being said, there may be some parking loss depending on which design is chosen. We are wondering whether we could engage with your office about whether the County library (Culver City Julian Dixon Library) could allow for shared parking resources, especially during times when the library is not opened.

Do you know how we may be able to kickstart those discussions about parking use at the County library? Depending on how the community reacts to the potential parking loss, it may be beneficial if we are able to offer the use of some additional parking on this corridor.

I'll let Thomas add any more info that I missed.

Thank you for considering this, Anne.
