Dear Thelma,

It's very nice to make your acquaintance – thank you so much for writing to me! I hope that the school year is starting off well for you.

I'm glad to know of these course changes. Please rest assured that they will have no impact on how your students are reviewed in our admissions process - they will not be at any sort of disadvantage! We don't assign points to honors classes (or any other sorts of classes) or particular types of curriculums. When we do our review, it is in the context of each individual high school and what the student has achieved with the opportunities that s/he has been presented with. We do not compare curriculums across high schools. It would be helpful to note these changes on your school profile so that we can understand the course progression on transcripts, but there is no disadvantage to your students as a result of these changes.

I hope this is helpful – and please feel free to be in touch at any time!

Warmly,

Kanoe
