Hey good afternoon,

I do believe that I can provide the service staff as well. I think in total I would need 4 maybe 5 people, myself included in that number. 2 of us in the kitchen area, and 2 or three of us in the food and beverage area.

We would provide a menu that included one vegan item, and two vegetarian items of the 6 total courses. If you see anything that needs or you would like to be changed on the menu, feel free to let me know. I think we can execute this for 5k total, and I can provide you with an itemized receipt upon completion of the event. Hopefully that can work for you. Please let me know if you have any questions or concerns.

Martin
