I hate to be that person, but IMHO we can put it wherever folks are considering workforce housing. Not being petty, but since we've had two agendized discussions about that, I will be requesting an agendized discussion about a pool in the near future. I realize this won't be a short term goal and can only happen if all the stars align, but I believe we owe it to our students to at least have an honest discussion and explore all long and short term options.

Hi Summer,

I'll look back through notes, but no we did not include anything related to a pool in the Plan. I do remember it being mentioned during discussions, but it never went anywhere.

It always comes back to – where would we put it?

Subject: Facility Master Plan Question

Hi Robert,

I had a conversation with Coach Nestor who was asking about the possibility of the district ever moving towards having a swimming pool. I told him that, although we're not discussing it right now, I thought it was included in the facility master plan which also included a cost breakdown. Am I remembering correctly? I remember advocating for a pool to be included, but I wasn't able to find anything related in the FMP link on the district website. Can you point me in the right direction?
