Hello All,

Please find attached the Science Course Recommendation Form that the Science Department will fill out for each of our current 9th, 10th, and 11th grade students as a way to encourage participation in AP/Honors classes for those who we think are ready now and for those who we hope will be ready in the future.

The students will take these home for the parent/guardian to sign, and they will bring it with them to their class selection meeting with their counselors.

Please feel free to modify and use for your respective departments. This form was adapted from the form successfully used by the Social Studies department; they have experienced fewer drops as a result of students finding their ideal class placements.

Best regards,
Mariah
