Good afternoon Kristin,

Hope you had a great weekend. None of us implied that Sony was going to pay towards these improvements. The email from Thomas to your staff was simply posing the question and waiting for an answer from your team.

The project will go back to the Mobility Subcommittee in September to discuss the proposed cycle track on top of a wider sidewalk throughout the entire project limits, which was not discussed before. Please let me know if you'd like to attend that meeting and I'll be sure to notify you a few weeks in advance.

- Best Regards, DEMITRI

Good morning all,

Now that this has been moved through Council, would you please let me know where we stand on the section adjacent to the studio on Overland?

Demitri, thank you for sending this, which my colleague Nick had shard with me. I don't see anything in this email chain that indicates Sony ever agreed to contribute funds to this type of bike lane treatment which I believe you had stated in our last meeting. If there is other email traffic I'm not aware of, please send it to me.

Thanks,

Kristin

Hi Nick,

Thanks for returning my call. Below is an example of the treatment we discussed at Lincoln Blvd & Michigan Ave in Santa Monica. The exact design might vary a little from this, but I wanted to share to give

an overall sense of how everything would work together.
